	CENTRAL INTELLIGENCE AGENCY
]	(3) military quarters on the southern outskirts: Artillery units. (4) Jantonment, about two miles southsouthwest of NAU-
	ormobilizs docket and antiaircraft units, the latter being equipped with 88-mm guis.
	opon completion of their basic training recruits of all units were observed conducting night practices and firing practices with life amounttion.
	b. The field units from Nudolanditz were in surver comps in the woods of illiansPFORT (I 54/5 72) for maneuvers.
	e. The ration strength of the units stationed in the haddled area allegedly was about 20,000.

	3 to 4 July 1949
3 a	a. An entiairement bettery of six 88-mm juns moved into a propered, circular empleasament near PackArah (h 54/U j5) during the majha of 3 July 1949.
	The Jun crews practiced the slewing of Juns for several hours. bout four hours later the Juns, pulled by prime movers, left in the aircotion of Nativity.
	b. Other antidireraft jun engl coments were constructed near BRUSTOURF and ADAMSOURF ( 54/U 54) about 20 June 194). Each constructed as a circle and provided upace for six june. A wall of earth and stones, five to six feet high and covered with code was constructed around each jun engacement.
25X1A [	journents
	a. The observation of a "high unit meadquarters, allegedly a task division headquarters" in a restricted area on liester whit, Helefalliz, confirms the Meadquarters of the 9th dds fant Div until 13 June 1949.
~	that the individual quarters were occupied by recruits units while the field units were located in samer camps in law June 1949, is considered credible. However, it is doubted that the field thats should have been located in the woods of ill individual (training area of diffill), as no other courses have yet made corresponding statements. The component units of the 9th Jac Man. Div are believed to have been conducting their summer maneuvers in the Spick-GRANZIN area.
	c. The antisireraft artillary practices in the area north of hellowelltz (para 3) are believed to have been routine practices in the vicinity of the military post (training of recruits?).
